### CCS Response to Utah Public Service Commission Order on Stipulation

In the Matter of the Application to Remove GSS and EAC Rates from  
Questar Gas Company's Tariff (Docket No. 06-057-T04)

The Utah Public Service Commission order acknowledges several rate making principles such as cost causation and fairness in rate design, which the Committee raised in these proceedings and believes are important to consider. These facts and issues are appropriately examined in the context of a full rate case. The Committee looks forward to further developing the record in the next general rate case, which was always its preferred venue for addressing these issues.
